

NOR-FAB

Manufacturing

Precision Sheet Metal Fabrication

Laser Cutting • Machining

Robotic Part Washing Enclosure

The Beginning...

Nor-Fab was established in 1994 to provide a niche in the fabrication machining market for the food service industry. We have assisted in the development and manufactured several food service machines. These machines have since been marketed worldwide.

As one of the first companies in Michigan's Upper Peninsula to own a flat laser table, we have been able to assist our customers with various areas of manufacturing.

Food Service Fabrications

Laser Cutting 5' x 10' Table

- 1/2" carbon steel
- 1/4" stainless steel
- 1/8" aluminium

Vertical Machining Centers

- (1) CNC Mori Seiki 12" x 30" table
- (1) CNC Mori Seiki 14" x 22" table

Stainless and Steel Welding Capabilities

- MIG TIG
- Spot Aluminum

Turning Centers

- (1) CNC Mazak twin spindle with live tooling and bar feeding up to 2"
- (1) CNC Mazak 22" chuck
- (1) CNC Mori Seiki chucker

Press Brake

- (1) CNC Accupress 110 ton capable of bending up to 8' wide

Band Saws

- (1) Automatic Feed
- (1) Manual Feed

Turn Key Projects Welcome • Design Services

EPA Refrigerant Type 1 and 2 Certified Technician on Staff

Brush finishing on stainless or steel for a clean, smooth appearance.

Nor-Fab offers competitive pricing, on time delivery and quick response time for your quotes. When it comes to custom fabrication, attention to detail is mandatory. Let Nor-Fab Manufacturing show you why we are the sheet metal specialists. Quality machining and fabrication all from one source. We look forward to helping you with all your production needs.
